

# Castle Magica

The magical boarding school of the Lissy Ponies is an extremely beautiful and mysterious place. Tamani shows you how to recreate it here.

Transform your Castle Magica again and again: you can always expand it with additional cardboard rolls or boxes!

Tamani

Stick the Lissy PONY horseshoe onto a toothpick. Then stick it into the roof of your highest castle tower.

- YOU NEED:**
- Kitchen and toilet paper rolls • round boxes with lids in different sizes • acrylic paint in pink, gold and purple
  - gold paper circles (2 x Ø 6 cm, 1 x Ø 10 cm, 1 x Ø 15 cm) • beads • purple paper tape • tissue paper in green and pink
- Also:** paintbrush, scissors, glue, toothpick

## HOW IT WORKS:

**1** First, paint all your cardboard rolls and boxes in pink. Paint the lids gold.

**2** Make four equally sized towers from a kitchen roll. Cut two 1 cm long slits into one end of each of these towers.

**3** Glue the boxes and lids together to form a castle as shown in the picture. Stick the four towers to the largest lid. This is then the balcony of the middle tower of your castle.

**4** Divide the gold paper circles for the tower roofs. Then glue them together to form pointed cones.

**5** Glue the window and door templates to the castle. Decorate the roofs with beads. Paint squiggles on the purple towers and decorate them with adhesive tape.

**6** Finally, crumple up some tissue paper and stick it onto the castle wall as flower tendrils.

*That's it!*
